"I'm always nervous when I book an act that I haven't personally seen but I needn't have worried! 'Elementz' went down a storm with our audience"

-ARC2011

"I just want to say a big thank you to you and all of your dancers, they were fantastic. We had great feedback from customers and staff. I hope they all enjoyed the evening as much as we did! I can't tell you enough how lovely and polite they all were."

-Mercedes-Benz of Chelmsford

"Elementz were amazing. All the guests loved them and they were very friendly and fun too. They looked the part, I liked that their outfits matched. The songs were great and the performance was exactly what was expected for a street dance/break dance performance. Everyone is still talking about them now. No criticisms whatsoever - people worried and gasped when they did the flips etc but they were perfectly executed. Outstanding. I particularly enjoyed that at first the lights were off as they started the performance, then with a change of music the lights came up. Genius! Well done to the lads. Definitely hire them again in future - seems they are going to be big stars. Thanks for an unforgettable night."
